Louise Lund in DLR should be able to give you an update.

Michael Modes in Region I knows a lot about it.

On the Region I call yesterday morning, you mentioned something about problems with the FatiguePro program. I couldn't hear parts of the discussion, but I wanted to check with you to see if you thought we needed to do anything with the issue. I'm not sure of the nature of the problem, or if any plants other than OC and VY are affected. In any case, can you let me know if the licensee renewal people down here are aware of the concerns?
