**Subject:** plant construction in Levy County Florida

I appreciate your consideration of public comments in the planning process. Thank you.

I'm on a watch email list for environmental concerns in our area. A newsletter just went out to everyone and had a sample letter in it which disturbed me. I wanted to write in my support of the plant, provided it's built in a safe manner and run safely, which I'm sure everything is being done within the committee's power to be sure it is. I don't subscribe to the climate change argument pushed in the sample letter and believe with proper procedures in place, nuclear power is a good choice to help meet our power needs.

You have my full support with proper care in place to help make Florida's power system more stable and stronger.

THANK YOU again.

Tami Nelson

Fort White, Florida.
