Re: Progress Energy Florida, Inc.
Levy Nuclear Power Plant, Units 1 and 2
Federal Register, Publication Date, 17 October 2008
Page no. 63519

Dear Sirs,

I am OPPOSED to the Levy Nuclear Power Plant Units 1 and 2 currently being proposed by Progress Energy Florida, Inc.

Progress Energy operates a nuclear power plant in Citrus County, Florida, where I live and its proposal to locate another nuclear power facility nearby unreasonably exposes the residents of Levy and Citrus County to the increased risks that are well understood to be associated with nuclear power plants.

President-elect Obama has expressed reservations about whether our country's massive new investments in renewable energy should include nuclear power until issues of safety and disposal of waste have been resolved.

This is not the time to push ahead with a nuclear power plant that is not supported by the general public and does not advance our country's interests in developing renewable energy sources that are safe for people and the environment.

Sincerely,

Wendy Horgan
