**Cc:** Art Howell; Jack Whitten; Michael Vasquez; Mark Haire; Anthony Gaines  
**Subject:** RE: SABIA PEC follow-up/corrective actions  
**Attachments:** Training October 2008.pdf

Dr. Katanic,

Please find attached the record of the training meeting, which was inadvertently omitted from our recent information transmittal.

Regards,

Clinton Lingren

**Subject:** SABIA PEC follow-up/corrective actions

Messrs. Lingren and Miller:

Thank you for sending, for NRC review, the revised and new SABIA procedures that were requested by NRC during the November 10, 2008, Predecisional Enforcement Conference. Altogether we received 4 emails from you: 3 emails regarding procedures and 1 email with a license amendment request.

Regarding your corrective actions, during the PEC (and noted in the 11/12/2008 email attached below) you were also asked to provide NRC with copies of: (1) the results of the corporate-wide safety review, and (2) the training materials that were presented at your all-hands meeting. I did not see that particular information in any of the emails we received from you this past weekend. Will you be providing this information to us by COB today? If you do not intend to provide this information or are unable to provide this information, please let me know.

Regards,  
Janine

**To:** 'Clinton Lingren'; 'James Miller'  
**Cc:** Art Howell; Jack Whitten; Mark Haire; Michael Vasquez  
**Subject:** SABIA PEC follow-up

Messrs. Lingren and Miller:

Hope you had an uneventful trip back to CA.

During the PEC this past Monday November 10, 2008, you requested a copy of the slides that were used by NRC to describe our enforcement process. I have attached a copy (PDF version) of those for your use. These slides, along with your November 8, 2008, letter to NRC (and the attached inspection report review), and the PEC attendance lists, will be made publicly available.

Also, just a reminder that during the PEC, NRC requested that you provide us with copies of:

- the results of the corporate-wide safety review that was performed
- any procedures that were revised or new procedures that were developed as a result of the incident or the safety review (with the revisions to the dated procedures clearly annotated, as appropriate)
- the training materials that were presented at your all-hands meeting

You were asked to provide those documents to us within two weeks from the date of the PEC. Accordingly, please provide them to us no later than close of business Monday November 24, 2008.

Regards,  
Janine

## **Training: Revised Radiation Safety Procedures**

### Radiation Safety Committee Meeting

October 3, 2008

Attendees: April Montera, James Miller, Stephen Foster, Thomas Campbell

Subject: Review of corrective actions from the radiation leak event of February 29, 2008

1. Discussed revisions of existing radiation safety procedures.
2. Discussed training of radiation safety personnel with specific emphasis on the new procedures.
3. Resolved to conduct a thorough review of all records of radiation safety activities and made assignments.
4. Scheduled company-wide training meeting on new procedures.
5. Scheduled quarterly Radiation Safety Committee meetings for the coming year.

### Radiation Safety Training Meeting

October 13, 2008

Attendees: April Montera, James Miller, Stephen Foster, Thomas Campbell, John Hagley, Rick Evans, Robbie Bryant

1. Attendees had been participants in reviewing and making changes to the radiation safety procedures. A discussion was held of the changes and philosophy of conducting radiation safety functions.
2. Assignments were made for conducting a thorough review of radiation safety records.
3. Assignment was made to conduct this training individually with those radiation safety personnel who were not in this training meeting.
