Mr. Kevin Null
U. S. Nuclear Regulatory Commission, Region III
2443 Warrenville Road, Suite 210
Lisle, Illinois 60532-4352

Re: NRC License 24-20091-01

Dear Mr. Null:

After review of what would likely be our commitments to some of our clients should we need to assist them with their sealed sources, we propose the following changes:

Items

- | | |
|---|---|
| 6.J. Cesium-137 | Total possession not to exceed 10 curies |
| 6.K. Cobalt-60 | Total possession not to exceed 500 millicuries |
| 6.L. Americium-241 | Total possession not to exceed 5 curies |
| 6.P Any byproduct material with atomic numbers 1-98 (including uranium and thorium) | Total possession no to exceed 1.5 curies |
| 6.Q. Americium-241 | No single source to exceed 1.5 curies; total possession not to exceed 5 curies |
| 6.R. Cesium-137 | No single source to exceed 3.0 curies; total possession not to exceed 10 curies |

And the addition of the following item:

- | | |
|--|---|
| 6.S. Isotopes listed in Table 1.- Radionuclides of Concern | Aggregate activity of all sealed sources to be maintained such that the sum of the ratios of the activity of each radionuclide is less than unity |
|--|---|

I hope these changes will meet with NRC approval regarding Increased Controls concerns that have been raised. If you have any questions or concerns, please feel free to contact either myself or the individual listed on the Fax cover sheet, Mr. Kevin McCann.

Thank you in advance for your consideration,

Sincerely,

Robert M. Wester
President
