

January 2, 2009

Carol A. Couch, Ph.D., Director
Georgia Department of Natural Resources
Environmental Protection Division
2 Martin Luther King, Jr., Drive, SE
Suite 1152, East Tower
Atlanta, Georgia 30334

Dear Dr. Couch:

Thank you for your December 4, 2008, letter responding to the recommendations in the Georgia Proposed Final Integrated Materials Performance Evaluation Program (IMPEP) Report, dated November 21, 2008. U.S. Nuclear Regulatory Commission (NRC) staff has reviewed your response to the recommendations made in the report and believe that your proposed actions adequately address the recommendations.

A periodic meeting will be conducted with your program approximately 1 year from the September 2008 IMPEP review. The periodic meetings were created to help NRC and Agreement States remain knowledgeable of their respective programs and to plan for the next IMPEP review. The next full IMPEP review of the Georgia Agreement State Program is tentatively scheduled for September 2012. During the periodic meeting and at the next IMPEP review, we will evaluate the effectiveness of your response to our recommendations, as well as the implementation of your overall program.

I appreciate the positive actions that you and your staff are taking to address the recommendations. I also wish to acknowledge your continued support for the Agreement State program. I look forward to our agencies continuing to work cooperatively in the future.

Sincerely,

/RA/

Robert J. Lewis, Director
Division of Materials Safety and
State Agreements
Office of Federal and State Materials
and Environmental Management Programs

cc: Cynthia Sanders, Manager
Georgia Radioactive Materials Program

Jim Sommerville, State Liaison Officer
Georgia Program Coordination Branch
