Dear Dr. Paul Gueye,

This is in reference to your letter dated November 4, 2008, requesting for amendment to Nuclear Regulatory Commission License No. 45-09657-03. In order to continue our review, we need the following additional information:

1. You wrote that you only wish to be licensed for a 8 uCi Am-241 source. Please confirm that you wish to remove the other material which you are licensed (cesium 137, thorium 228, cobalt 60, technetium 99m, and iodine 131). Please confirm that you wish your limit to be 8 uCi for americium 241.
2. It was noted in your last inspection that some of the authorized users were no longer associated with Hampton University. Please state which authorized users should be removed from the license.
3. With the change of management representative, please confirm that the address on the license is accurate or request for a mailing address change. Currently, the address is Hampton University, Center for Advanced Medical Instrumentation, Physics, Olin 102, Hampton, Virginia 23668.
4. Please submit the physical location (street address) of Hampton University.

We will continue our review upon receipt of this information. Please reply to my attention at the Region 1 Office and refer to Mail Control No. 143070. If you have technical questions regarding this letter, please call me at (610) 337-5366.

*Please note that you may not reply to this letter by return e-mail. Your reply must be in writing by letter or facsimile (610-337-5269). If we do not receive a reply from you within 30 calendar days from the date of this e-mail, we will assume that you do not wish to pursue your application.*

Thank You,

Dennis Lawyer
