Southern Nuclear Operating Company  
Vogtle Electric Generating Plant Units 3 and 4 Combined License Application  
Update to Part 1 of the COLA

Ladies and Gentlemen:

By letter dated March 28, 2008, Southern Nuclear Operating Company (SNC) submitted an application for combined licenses (COLs) for proposed Vogtle Electric Generating Plant (VEGP) Units 3 and 4 to the U.S. Nuclear Regulatory Commission (NRC) for two Westinghouse AP1000 reactor plants, in accordance with 10 CFR Part 52. At that time, it was anticipated that certain agreements would be put in place post-submittal. These agreements were discussed in Part 1 of the COL Application (COLA) as they were anticipated to occur. Since that time, three agreements have been reached involving an Engineering, Procurement, and Construction (EPC) Agreement, an agreement with Georgia Power Company for SNC to construct Vogtle Units 3 and 4, and the ownership of the new Units including each owner's percentage of ownership. These agreements have been made as anticipated in Part 1 of the COLA as submitted and therefore, no change in the terms discussed in Part 1 is necessary. These agreements will be reflected as being in effect in the next revision to the COLA.

If you have any questions regarding this letter, please contact Mr. Wes Sparkman at (205) 992-5061.
