ATTN: Document Control Desk

Subject: Virgil C. Summer Nuclear Station (VCSNS) Units 2 and 3 Combined License Application (COLA) - Docket Numbers 52-027 and 52-028 Response to NRC Request for Additional Information (RAI) Letter No. 006

Reference: Letter from Tanya Simms (NRC) to Alfred M. Paglia (SCE&G), Request for Additional Information Letter No. 006 Related to SRP Section 09.05.01 for the Virgil C. Summer Nuclear Station Units 2 and 3 Combined License Application, dated December 1, 2008.

The enclosure to this letter provides the South Carolina Electric & Gas Company (SCE&G) response to the RAI items included in the above referenced letter. The enclosure also identifies any associated changes that will be incorporated in a future revision of the VCSNS Units 2 and 3 COLA.

Should you have any questions, please contact Mr. Al Paglia by telephone at (803) 345-4191, or by email at apaglia@scana.com.

I declare under penalty of perjury that the foregoing is true and correct.

Executed on this 22nd day of December, 2008.

Sincerely,

Ronald B. Clary
General Manager
New Nuclear Deployment

NRC RAI Letter No. 006 Dated December 1, 2008

SRP Section: 09.05.01 – Fire Protection Program

Question from Fire Protection Team (SFPT)

NRC RAI Number: 09.05.01-2

FSAR subsection 13.1.1.2.10 stated that fire brigade training is the responsibility of the Manager, Nuclear Training. However, fire brigade training is not identified in FSAR subsection 13.1.1.3.2.2.1, Functional Manager in Charge of Training (Nuclear Training). The applicant should revise the COL application to include fire brigade training and the required qualification by knowledge, suitable training, and experience of the trainer in the above FSAR subsection. Coordination with the engineer in charge of fire protection should also be included.

VCSNS RESPONSE:

To ensure completeness and provide additional clarification on the requirements and responsibilities of fire brigade training, FSAR subsection 13.1.1.3.2.2.1 “Functional Manager in Charge of Training (Nuclear Training)” will be revised to include the requested information.

This response is PLANT SPECIFIC.

ASSOCIATED VCSNS COLA REVISIONS:

VCSNS FSAR Subsection 13.1.1.3.2.2.1 will be updated in a future revision as follows (changes are indicated in red underlined text):

“The functional manager in charge of nuclear training is responsible for training programs at the site required for the safe and proper operation and maintenance of the plant including:

- Operations training programs
- Plant staff training programs
- Plant access training
- Radiation worker training
- Fire brigade training

The functional manager in charge of nuclear training may seek assistance from other departments within the company or outside specialists such as educators and manufacturers. The functional manager in charge of training ensures individuals providing fire brigade training are qualified by knowledge, suitable training, and experience for such work, and that coordination with the engineer in charge of fire protection is maintained. The functional manager in charge of nuclear training supervises a staff of training supervisors who coordinate the development, preparation, and presentation of training programs for nuclear plant personnel and reports directly to the GMNSS.”
