Docket Nos.: 52-014 and 52-015

RE: Bellefonte COL Application on Disc

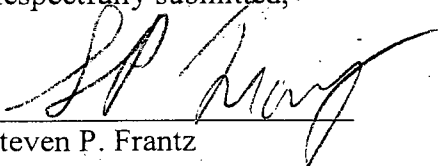

Dear Members of the Licensing Board:

In accordance with the Licensing Board's Memorandum and Order dated July 21, 2008, this letter provides each member of the Board and each of the parties with a disc containing an electronic copy of the publicly available version of the combined license application (COLA) for Bellefonte Nuclear Power Plant, Units 3 and 4. The attached disc is organized as follows:

- The disc contains a separate folder for each Part of the COLA, except for Parts 8 and 9 which contain information that is not publicly available.
- The folders for the final safety analysis report (FSAR) and the environmental report (ER) each contain separate folders for each chapter of the report.

- Additionally, the folders for the FSAR and the ER each contain a file with the table of contents (TOC) for the report. Clicking on a particular section expands the TOC for that section. Clicking again on a particular section or subsection transfers the view to the text of that section or subsection.

Respectfully submitted,

Steven P. Frantz
