Rachel,

Attached please find NRC Form 313 "Application for Material License" to amend License #11-27075-01, Docket #30332229 for a company name change and the addition of a new source material in Sections 6, 7 & 8. Also attached, please find our Change of Control and/or Change of Ownership application concerning the name change.

On December 16, 2008, the Potlatch Forest Products Corporation planned spin-off of its pulp-based businesses into a publicly-traded company called Clearwater Paper Corporation will occur. Clearwater Paper Corporation, 801 & 803 Mill Road, Lewiston, Idaho, will continue to utilize its existing U.S. Nuclear Regulatory License # 11-27075-01, docket #030-32229, amendment 07. There will be no change in personnel having control over licensed activities. This application is for a company name change only.

In the matter of adding a new source material in Parts 6D, 7D & 8D, we submit the following:

For Part 6D Byproduct, source and/or special nuclear material, we request the addition of "**Promethium 147**" which we currently possess as a generally licensed material from the Honeywell Corporation.

For Part 7D Chemical and/or physical form, we request the addition of "**Sealed sources registered either with NRC under 10CFR 32.210 or with an Agreement State and incorporated in a compatible gauging device as specified in Item 9 of this license**"

For Part 8D Maximum amount that licensee may possess at any one time under this license, we request the addition of ***“5 curies total. No single source to exceed the maximum activity specified in the certificate of registration issued by the U.S. Nuclear Regulatory Commission or an Agreement State”***

Please contact me with any questions.

Thank you for your consideration and assistance with both of these matters.

Sincerely,

*Paul E. Bridges*
