Subject: Surety Acceptance Review

Mr. Teahon:

By letter dated, September 29, 2008, Crow Butte Resources, Inc. (CBR) transmitted to U.S. Nuclear Regulatory Commission (NRC) staff, a copy of the surety update sent to the Nebraska Department of Environmental Quality. NRC staff has performed completed its acceptance review and is accepting this surety update for a full technical review. However, as stated in the Technical Evaluation Report (TER) dated May 12, 2008, CBR must revise its pore volume estimate to more closely represent that, which was required to restore Mine Unit 1. If you have any questions, please contact me at 301-415-7182.

Sincerely,

Stephen J. Cohen
