

June 4, 2007

Mr. R. M. Krich
Senior Vice President, Regulatory Affairs
UniStar Nuclear Development, LLC
750 E. Pratt Street 14th Floor
Baltimore, Maryland 21202-3106

Dear Mr. Krich:

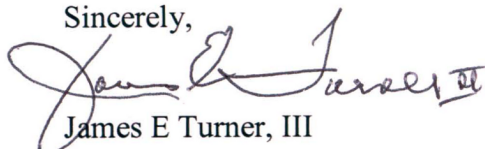

In reference to your letter dated June 4, 2007 regarding the Delaware Radiological Emergency Preparedness (REP) Plan, I have enclosed our plan for your submission as part of your proposal to NRC.

For the UniStar Nuclear LLC proposed U.S. Evolutionary Power Reactor to be located adjacent to the Calvert Cliff's Power Station Units 1 and 2 in Lusby, MD, the Delaware Emergency Management Agency is committed to participating in any further development of the emergency response plans, including any required field demonstrations, if found to be needed, and will work with UniStar Nuclear to identify any needed changes to our current commitment to execute our responsibilities under the existing emergency response plans in the event of an emergency.

If you have any questions, please feel free to contact Janet Chomiszak of my staff at (302) 659-2229

Thank you.

Sincerely,

James E Turner, III
Director,
