To whom it may concern:

This letter confirms that Qing Chen, MS is an approved Authorized Medical Physicist under our broad scope license, NRC License No. 21-04109-16. Typically, authorized medical physicists are not listed on a broad scope license such as ours since we are able to internally approve these individuals. Mr. Chen was approved by our Radiation Safety Committee as an authorized medical physicist on November 4, 2008. He clearly meets the relevant training and experience requirements for 10 CFR 35.51. Among other things, Mr. Chen is approved for brachytherapy, teletherapy, and high dose rate afterloader therapy.

If you should have any questions, please contact the Radiation Safety Office at (313) 916-7042.

Sincerely,

Alan M. Jackson, MS, CHP  
Senior Health Physicist  
Secretary, Radiation Safety Committee
