Subject: FW: Survey: Cooling towers with wooden structures or supports

This request came in while I was on leave, and I forwarded it to Tom since I knew of your leave. Since his telephone greeting indicates that you will return to work sooner, I left a message that I would forward the enquiry to you for response.

I don't have guidance for a specific response date but would appreciate an early answer. A concise answer to both questions would seem appropriate.

Subject: FW: Survey: Cooling towers with wooden structures or supports

Tom, This enquiry came to me on Friday. I was, and am, on leave until Wed. Please respond to me, and I will forward the answer.

Thanks,
Karl Feintuch

1. Does Duane Arnold have either natural draft hyperbolic cooling towers or forced draft cooling towers?
2. Are there any wooden structures or supports?
