

**UNITED STATES
NUCLEAR REGULATORY COMMISSION**
WASHINGTON, D.C. 20555-0001

February 5, 2009

LICENSEE: Dominion Energy Kewaunee, Inc. (DEK)

FACILITY: Kewaunee Power Station (KPS)

SUBJECT: SUMMARY OF THE JANUARY 15, 2009, MEETING WITH DEK TO DISCUSS A
FUTURE AMENDMENT TO CONVERT THE KPS TECHNICAL
SPECIFICATIONS (TS) TO THE IMPROVED STANDARD TS FORMAT
(TAC NO. ME0247)

On January 15, 2009, the U.S. Nuclear Regulatory Commission (NRC) staff held a Category 1 public meeting with representatives of DEK at the NRC offices located at 11555, Rockville Pike, Rockville, Maryland. The purpose of this meeting was to discuss issues related to DEK's future application for an amendment to convert the KPS TS from the current custom format to the improved standard TS format. A list of attendees is provided as an Enclosure.

The licensee's presentation, depicting its approach to the future processing of the proposed amendment, was outlined by the licensee's handout material (See Agencywide Documents Access Management System (ADAMS) Accession No. ML090160122). The NRC staff discussed with the licensee various aspects of the approach using its handout (ADAMS Accession No. ML090160113). The NRC staff stated that the licensee should follow the NRC-approved Revision 3.0 of NUREG-1431, "Standard Technical Specification Westinghouse Plants", as updated by various TS Task Force change travelers, not Revision 3.1 as proposed by the licensee. This is because Revision 3.1 is not NRC-approved.

Members of the public were not in attendance. No portion of this meeting was closed to the public because no proprietary information was used by the participants.

Before the meeting adjourned, licensee participants were given the opportunity to communicate with the NRC staff both verbally and through the use of public meeting feedback forms. No comment or feedback was received at this time.
