Mr. William K. Hughey
Director, Licensing – New Plant
Entergy Operations, Inc.
P.O. Box 31995
Jackson, MS 39286-1995

SUBJECT: STAFF REVIEW OF THE COMBINED LICENSE APPLICATION FOR
GRAND GULF STATION UNIT 3

Dear Mr. Hughey:

By letter dated February 27, 2008, you tendered a combined license application (COLA) for one economic simplified boiling water reactor (ESBWR) to be constructed and operated at the Grand Gulf Nuclear Station (GGNS) site, and designated as GGNS Unit 3. By letter dated April 17, 2008, the U.S. Nuclear Regulatory Commission (NRC) informed you that the staff had completed its acceptance review and determined that your application was acceptable for docketing.

In a letter dated January 9, 2009, Entergy Operations, Inc. (Entergy) requested the NRC temporarily suspend its review of the GGNS Unit 3 COLA until further notice pending your re-evaluation of alternative reactor technologies. You also stated that since this may require a COLA revision, you will defer the planned revision of the COLA which was due in mid-February 2009. Entergy also certified, pursuant to 10 CFR 52.3 and 10 CFR 50.71(e), regarding compliance with the annual final safety analysis report (FSAR) update requirement, that there have been no changes to the GGNS Unit 3 FSAR since the original submittal, docketed April 17, 2008. The letter also stated that Entergy plans to provide an update on the progress of the technology selection by July 31, 2009, and will inform the NRC no later than 90 days prior to submittal of a revised COLA.

Based on staff review of your request, the NRC will suspend review of the GGNS Unit 3 COLA. The staff will work with Entergy, and other Federal agencies supporting the staff, to suspend the COLA review in a timely and orderly manner in an effort to preserve appropriately work that has been accomplished. The GGNS Unit 3 COLA will remain docketed. Upon submittal of the revised COLA, the NRC will conduct acceptance and technical reviews, as the staff deems appropriate, and in consideration of resources and priorities at that point in time.

W. Hughey
