SUBJECT: MEETING SUMMARY – CATEGORY 1 MEETING, SHAW AREVA MOX SERVICES, MIXED OXIDE FUEL FABRICATION FACILITY (MFFF) - DOCKET NUMBER 70-3098

Dear Mr. Stinson:

This letter refers to our Assessment of Applicant Performance (AAP) public meeting conducted at the Aiken Municipal Center in Aiken, South Carolina on December 15, 2008. The purpose of this meeting was to discuss the results of Shaw Areva MOX Services' performance in the areas of management measures, facility construction, and licensing activities covering the period from October 16, 2006, to September 30, 2008. The meeting also provided you the opportunity to provide feedback to the NRC regarding your self assessment, program enhancements, and perception of the NRC performance review. The meeting was beneficial and provided the NRC with information regarding the various initiatives taken by MOX Services, both onsite at the Mixed Oxide Fuel Fabrication Facility construction project, and offsite. Additionally, the meeting afforded members of the public and media representatives the chance to ask questions regarding your facility and/or the NRC applicant performance review process.

The names of participating attendees at the meeting and a copy of the presentations used by MOX Services and the NRC are enclosed.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosures will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's Agency wide Document Access and Management System (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).
