Hi Ann, Erin Fougeres in office deals with all of the marine mammal strandings for the southeast. I am ccing her so you have her email address. As far as the BA requirements, we will not require a BA for whales because they will not be in the project area because it is too shallow. The list you were sent was for the entire GOM. Let me know if you need anything else and have a Happy Holiday!

Hi Shelley,

Sorry this e-mail has been late in coming, I was off to another meeting in Portland last week!

If you could forward any information about programs dealing with marine mammal strandings I would appreciate it!

By the way, NRC received a letter from Robert Hoffman regarding a list of protected species within the area of the Levy plant. We are already preparing the assessments for the turtles and the fish, but the whales were a surprise.

Thanks!
