)	52-028 COL
(Virgil C. Summer Nuclear Station)	
Units 2 & 3))	
)	

SUPPLEMENTAL DECLARATION OF LESLIE A. MINERD

Under penalty of perjury, I, Leslie A. Miner, declare as follows:

1. I am a member in good standing of Friends of the Earth and the Sierra Club.
2. I reside at 2716 Blossom Street, Columbia, South Carolina. I own and operate a retail business in Columbia and am a customer and ratepayer of South Carolina Electric & Gas Company ("SC E&G") at my residence and business. My residence and business is located within 50 miles of the proposed site of the new Virgil C. Summer Nuclear Station Units 2 & 3, in Fairfield County, South Carolina, for which SC E&G has submitted a combined construction permit and operating license application ("COLA") to the U.S. Nuclear Regulatory Commission ("NRC" or "Commission"). I am part owner of 35 acres of land located within 10 miles of the proposed nuclear plant where I help maintain a nature preserve. I use and enjoy natural resources between my home and the proposed nuclear plant site.
3. I am concerned that if the NRC grants SCE&G's COLA, the construction and

operation of the proposed nuclear power plant could adversely affect my health and safety and the integrity of the environment where I live as well as my economic interests. I am particularly concerned about the risk of accidental releases of radioactive material to the environment, and the potential harm to groundwater supplies and local surface waters.

4. In order to ensure that the licensing decision for the proposed nuclear power plant protects my interests in a safe and healthful environment, I have authorized the Sierra Club and Friends of the Earth to represent me and my interests in any licensing proceeding and/or related rulemaking proceeding that concerns the safety and environmental impacts of the proposed nuclear power plant. I have also authorized Sierra Club and Friends of the Earth to take any legal actions that are necessary to ensure that the licensing proceeding and the rulemaking proceeding are conducted fairly, efficiently, and in a manner that provides for the full consideration of all licensing issues that could affect my safety and the health of my environment.

I declare under penalty of perjury that the foregoing facts are true and correct and that any expressions of opinion are based on my best judgment.

Leslie A. Miner

SUPPLEMENTAL DECLARATION OF THOMAS W. CLEMENTS

Under penalty of perjury, I, Thomas W. Clements, declare as follows:

1. I am an employee and member in good standing of Friends of the Earth and am a Life Member in good standing of the Sierra Club. I am employed as the Southeast Nuclear Campaign Coordinator of Friends of the Earth.
2. I reside at 1112 Florence Street, Columbia, South Carolina. I am a customer and ratepayer of South Carolina Electric & Gas Company ("SC E&G") at my residence. My residence is located within 50 miles of the proposed site of the new Virgil C. Summer Nuclear Station Units 2 & 3, in Fairfield County, South Carolina, for which SC E&G has submitted a combined construction permit and operating license application ("COLA") to the U.S. Nuclear Regulatory Commission ("NRC" or "Commission"). I engage in recreational activities within 10 miles of the proposed nuclear plant. I use and enjoy natural resources between my home and the proposed nuclear plant site.
3. I am concerned that if the NRC grants SCE&G's COLA, the construction and

operation of the proposed nuclear power plant could adversely affect my health and safety and the integrity of the environment where I live as well as my economic interests. I am particularly concerned about the risk of accidental releases of radioactive material to the environment, and the potential harm to groundwater supplies and local surface waters.

4.
