To Whom It May Concern:

This letter is in support of the radioactive materials license amendment request for Dr. Ray Agahtehrani to gain authorized user status. Dr. Agahtehrani is board certified by the Certification Board of Nuclear Cardiology, has satisfactorily completed the requirements in paragraph 10 CFR 35.290(a)(1), and has achieved a level of competency sufficient to function independently as an authorized user for the medical uses authorized under 10 CFR 35.100 and 35.200 limited to myocardial procedures. It is my belief that Dr. Agahtehrani possesses the ability to fulfill the radiation safety-related responsibilities related to these uses.

Please note that I am currently listed as an authorized user for the uses authorized under 10CFR35.100, and .200 on NRC Radioactive Materials License #: 47-09576-01.

Sincerely,

George J. Linsenmeyer, III, M.D.

Certification by the CBNC recognizes those physicians who have demonstrated knowledge skills in the field of Nuclear Cardiology by successfully passing a comprehensive written examination administered by the CBNC. To date, there are 5,491 physicians certified by the CBNC.

If you passed the exam and were testamur status, you need to provide documentation that you have passed your Cardiology, Nuclear Medicine or Radiology examination before your certificate will be mailed and your name listed in the roster of Diplomates.

All Diplomates certified in 1996 have indefinite certification. Beginning in 1997, certification is for a ten-year period with re-certification required by December 31, ten years following initial certification for those wishing to maintain Diplomate status with the CBNC.
