

FEMA

January 5, 2009

Mr. Bill Maier
State Liaison Officer
Nuclear Regulatory Commission, Region IV
612 East Lamar Boulevard, Suite 400
Arlington, Texas 76011-4125

Dear Mr. Maier:

Bill,

In compliance with 44 CFR, Part 350, and the Standard Exercise Report Format (SERF), I hereby submit a copy (electronically) of the Final Exercise Evaluation Report dated December 15, 2008, for the Columbia Generating Station (CGS) exercise conducted on September 9 – 10, 2008.

Further exercise documentation and related materials are retained by, and may be requested from, FEMA Region X, which is the office of record for these drill evaluations.

Ne deficiencies were identified. Three areas Requiring Corrective Action (ARCAs) were identified as a result of the exercise. One prior ARCA was resolved.

Copies of this report have been sent to the Nuclear Regulatory Commission, Region IV, the States of Washington and Oregon and the affected counties, as well as member of the Region X Regional Assistance Committee.

If you have any questions regarding the report, please contact Mike Hammond at (425) 482 3715.

Sincerely,

A handwritten signature in black ink that reads "Mike".

Michael L. Hammond
Chief, Technological Hazards Branch
