

January 23, 2009

Dr. Mario V. Bonaca, Chairman
Advisory Committee on Reactor Safeguards
U.S. Nuclear Regulatory Commission
Washington, DC 20555-0001

SUBJECT: FINAL REVIEW OF THE VOGTLE ELECTRIC GENERATING PLANT EARLY
SITE PERMIT APPLICATION AND LIMITED WORK AUTHORIZATION
REQUEST AND THE ASSOCIATED SAFETY EVALUATION REPORT

Dear Dr. Bonaca:

Thank you for your letter dated December 22, 2008, to Chairman Klein regarding the staff's review of the Vogtle Electric Generating Plant (VEGP) Early Site Permit (ESP) application and Limited Work Authorization (LWA) request discussed during the 558th meeting of the Advisory Committee on Reactor Safeguards (ACRS). The U.S. Nuclear Regulatory Commission (NRC) staff will reproduce your report as Appendix E to the final safety evaluation report (FSER) for the VEGP ESP site, scheduled for issuance on February 5, 2009. In your letter, the ACRS agreed with the NRC staff's conclusions that the VEGP ESP site is adequate for the proposed use, and the ACRS recommended that the NRC should grant both the ESP and the LWA.

The NRC staff appreciates the insight that the ACRS provided concerning the safety review of the VEGP ESP and LWA application. These insights contributed to the NRC staff's review and development of the FSER.

Sincerely,

/RA Bruce Mallett for/

R. W. Borchardt
Executive Director
for Operations
