Subject: Re: Summary of audit activities

Bo,

On Monday, September 24, I drove NRC personnel (Drew Stuyvenberg and Kate Lenning) by rental car to Indian Point (IP). Instead of attending the site tour, I met directly with Entergy personnel and representatives to discuss IP Environmental Site Audit Information Needs and questions regarding the environmental justice, socioeconomics, and land use review. Entergy personnel were very helpful in providing additional information and explaining and clarifying IP's PILOT and property tax payment information.

On Tuesday, September 25, I spent the entire day at IP reviewing and evaluating socioeconomic and land use reference material, information, and statements made in the IP ER. Minor questions regarding land use information were addressed by Entergy personnel.

On Wednesday, September 26, I attended the IP Environmental Site Audit closeout meeting and returned NRC personnel (Kate Lenning and Jenny Davis) by rental car back to NRC headquarters.

The IP Environmental Site Audit was very successful, and there were no follow up questions/RAIs in my areas of review (environmental justice, socioeconomics, and land use).

Thanks,

jeff

Everyone (who attended the second Site Audit at IP),

Please provide me a short synopsis of your audit activities and any follow up questions/RAIs to be considered. Thanks.
