 (850) 245-4545

A party whose substantial interest is affected by this order may petition for an administrative hearing pursuant to sections 120.569 and 120.57, Florida Statutes, which proceedings are governed by Rule 28-106, Florida Administrative Code. A petition for administrative hearing must be in writing and must be received by the Agency Clerk for the Department, within twenty-one (21) days from the receipt of this order. The address of the Agency Clerk is: Agency Clerk, 4052 Bald Cypress Way, BIN C21, Tallahassee, Florida 32309-1703. The Agency Clerk's facsimile number is 850-410-1448. A copy of the petition should also be sent to: Bureau Chief, Bureau of Radiation Control, 4052 Bald Cypress Way, BIN C21, Tallahassee, FL 32309-1741. The Bureau Chief's facsimile number is 850-487-6435. Mediation is not available as an alternative remedy. Your failure to submit a petition for hearing within 21 days from receipt of this order will constitute a waiver of your right to an administrative hearing, and this order shall become a "final order." Should this order become a final order, a party who is adversely affected by it is entitled to judicial review pursuant to Section 120.68, Florida Statutes. Review proceedings are governed by the Florida Rules of Appellate Procedure. Such proceedings may be commenced by filing one copy of a Notice of Appeal with the Agency Clerk of the Department of Health and a second copy, accompanied by the filing fees required by law, with the Court of Appeal in the appropriate District Court. The notice must be filed within 30 days of rendition of the final order.

RADIOACTIVE MATERIAL LICENSE

SUPPLEMENTARY SHEET

LICENSE NUMBER: VA-505-09

DATE: May 16, 2001

12. Radioactive materials covered by this license may be used by or under the direct supervision of Steven C. Vranian, M.D. who will also serve as the Radiation Safety Officer.
13. The Licensee shall comply with the applicable provisions of the Commonwealth of Virginia's "Radiation Protection Regulations 1988" or any future revisions.
14. Sealed sources containing radioactive material shall not be opened by the licensee. All sources shall be stored in a labeled, secure location to prevent unauthorized removal. Sealed sources covered under this license shall be leak tested in accordance with page 3 of this license.
15. Copies of all receipts, transfers, surveys, leak tests and records of disposal shall be kept on the premises. All disposals shall be in accordance with any applicable Virginia regulations and procedures for licensed material. The Radiation Safety Officer or his approved designee(s) shall order all radioactive material.
16. Except as specifically provided otherwise by this license, the licensee shall possess and use the radioactive material authorized by this license in accordance with statements, representations, and procedures contained in applications, submissions or letter(s) dated May 14, 2001.

MATERIALS LICENSE

Pursuant to the Atomic Energy Act of 1954, as amended, the Energy Reorganization Act of 1974 (Public Law 93-438), and Title 10, Code of Federal Regulations, Chapter I, Parts 30, 31, 32, 33, 34, 35, 36, 39, 40, and 70, and in reliance on statements and representations heretofore made by the licensee, a license is hereby issued authorizing the licensee to receive, acquire, possess, and transfer byproduct, source, and special nuclear material designated below; to use such material for the purpose(s) and at the place(s) designated below; to deliver or transfer such material to persons authorized to receive it in accordance with the regulations of the applicable Part(s). This license shall be deemed to contain the conditions specified in Section 183 of the Atomic Energy Act of 1954, as amended, and is subject to all applicable rules, regulations, and orders of the Nuclear Regulatory Commission now or hereafter in effect and to any conditions specified below.

Amendment No.
01

12. Licensed material listed in Item 6 above shall be used by, or under the supervision of the following individuals for the materials and uses indicated:

Authorized User

Material and Use

A. Steven Craig Vranian, M.D.

Medical uses identified in 10 CFR 35.100 and 35.200
(except generators and radioactive gases)

B. William Cicio, M.D.

Medical uses identified in 10 CFR 35.100 and 35.200
(except generators and radioactive gases)

13. Sealed sources containing licensed material shall not be opened by the licensee.

14. In addition to the possession limits in the license, the licensee shall further restrict the possession of licensed material to quantities below the minimum limit specified in 10 CFR [30.35(d) or 40.38(b) or 70.25(d)] for establishing decommissioning financial obligations.

15. Except as specifically provided otherwise in this license, the licensee shall conduct its program in accordance with the statements, representations, and procedures contained in the documents, including any enclosures, listed below, except for minor changes in the medical use radiation safety procedures as provided in 10 CFR 35.31. The U. S. Nuclear Regulatory Commission's regulations shall govern unless the statements, representations, and procedures in the licensee's application and correspondence are more restrictive than the regulations.
