To: United States Nuclear Regulatory Commission.

I will like to terminate the NRC license number 52-³¹²⁰⁰~~31200~~-01, DOCKET # 030-37362.

No radioactive material was utilized, no studies were performed and no cameras were installed in this site under this license.

Mrs. Lizette Roldan, health physicist of the US Nuclear regulatory Commission, inspected the site recently.

Thanks
