3. Federal Register Notice, dated February 13, 2008 (ML080500570)

South Texas Project Nuclear Operating Company (STPNOC) requests that the NRC review all portions of the STP 3&4 Combined License application (COLA). STPNOC has arranged the vendor support required to further develop the design referenced in the COLA. These arrangements resolve the reason for the previous request for portions of the application to be held in review abeyance (Reference 1), and the resulting decision by the NRC to suspend review of part of the application (Reference 2).

This request serves as notification that STPNOC is prepared to support a review of the complete application and, with the submittal of COLA Revision 2, meets the conditions for NRC review of the COLA in full, as stated in References 2 and 3.

There are no commitments in this letter.

If there are any questions regarding this request, please contact me at (361) 972-7136, or Bill Mookhoek at (361) 972-7274.
