Subject: 4th Quarterly Status Reports for the Nuclear Criticality Safety Improvement Project

Gerry,

The NRC staff reviewed the Westinghouse Electric Company's January 5, 2009, submittal of the Quarterly Status Report for the Nuclear Criticality Safety Improvement Project, covering the period for the fourth quarter of October 2008 to December 2008. This submittal is required under Safety Condition S-3 of SNM-1107. The report has been shared with the NRC staff and we have no questions at this time. We will continue to monitor the project's progress, and an inspection may be performed at a future date, in accordance with our inspection schedule.

If you have any questions, feel free to call me at 301-492-3116.

Nilda Rivera
