Thanks Steve. Here are a few more topics we might touch on. I believe they should all be brief. (If we don't finish any items tomorrow, we can continue the discussions at next week's drop-in visit.

- Update on FRN for hearings (forgive me for being a pest)
- Confirmation re drop-in visit on 29<sup>th</sup> at 10 am to discuss COLA review schedule. How big is the room? We may bring as many as 8 people. Is that okay?
- If Michael Willingham is going to be on the call, we are interested in when he will be getting us a list of "needs" for the 2/2 and the week of 2/23 site visits.
- Do you have any idea when the RAIs may start to appear? We want to make sure our processes are in place and resources available.
- Do you have any more information on the Safety Site Visit tentatively schedules for March? We still have plenty of time but it is not too early to start lining up materials, resources and plans. Will the branches involved with this visit hold potential RAIs until after the visit?
- We received an invoice for the last quarter under our old project number. Should we also expect an invoice under our new docket numbers?

Talk to you tomorrow.

Don/John,

The NRC has a public meeting on February 4, 2009 in Rockville to discuss new reactor operator licensing.

We have a digital I@C meeting at Oak Ridge TN on January 22-23, 2009.

Other than those two topics I do not have anything else for the call on Wednesday.

thanks,
