Re: NRC License 29-03044-04; Docket No. 030-11084 Change of Radiation Safety Officer

Dear Sir/Madam,

I am writing to inform you that Karen C Butzgy is no longer with the organization. We hereby advise that Calum J Alexander is our Radiation Safety Officer. Please would you update the records to reflect this change.

Mr. Alexander has a Bachelor of Science in Physics from the University of Glasgow in Scotland and has more than fifteen years experience working in the Nuclear Industry in both the United States as well as in the United Kingdom. He also attended a month long National Radiological Protection Board training course at Harwell in England. He has held the position of Corporate Radiation Safety Officer working for (British Nuclear Fuels Limited Incorporated (BNFL Inc.) in Denver Colorado from 1999 to 2005. During this time he worked on projects as a Health Physicist at Rocky Flats, CO; Hanford, WA; INEEL, ID; Oak Ridge, TN and the Big Rock Point Decommissioning Project, MI. In the United Kingdom Mr. Alexander worked as a Health Physicist for BNFL (including being a Radiation Protection Advisor) at the Sellafield Reprocessing Facility from 1989 to 1999.

As a result of his experience we believe Mr. Alexander is suitably qualified and experienced to fill the role of Radiation Safety Officer.

Please contact me if you have any questions

Sincerely,

A handwritten signature in black ink, appearing to read "Gus Elsner", written over a horizontal line.

Gus Elsner
Manager--Safety, Environmental and Risk Management
Infineum USA LP
