Core Laboratories, Inc.
dba ProTechnics Division of Core Laboratories
ATTN: Will C. Williams
Radiation Safety Officer
6316 Windfern Road
Houston, Texas 77040

SUBJECT: CORRECTED COPY TO NRC LICENSE NO. 42-26928-01

Please find enclosed a corrected copy to Amendment No. 38 of NRC License No. 42-26928-01. **The corrected copy reflects the authorization for Bromine-82 in Item 9.R. for use in above ground studies only, while the authorization for tracer studies in oil, gas and geothermal wells is authorized under Item 9.A. through 9.H. This change avoids duplication of tracer studies in oil, gas and geothermal wells for Bromine-82.** An environmental assessment for this action is not required since this action is categorically excluded under 10 CFR 51.22(c)(14)(xi). You should review the enclosed document carefully and be sure that you understand all conditions. If you have any questions, please contact me at 817-276-6552.

Pursuant to NRC's RIS 2005-31, the enclosed materials license will not be made publicly available. In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Thank you for your cooperation.

Sincerely,

A handwritten signature in cursive script that reads "Rachel S. Browder".

Rachel S. Browder Health Physicist
Nuclear Materials Safety, Branch B
