SUBJECT: PIC, PHYSICIANS IMAGING CENTER, REQUEST FOR ADDITIONAL
INFORMATION CONCERNING APPLICATION FOR AMENDMENT TO
LICENSE, CONTROL NO. 143137

Dear Mr. Rose:

This is in reference to your letter dated December 18, 2008 requesting to amend Nuclear Regulatory Commission License No. 29-28041-01. In order to continue our review, we need the following additional information:

1. In consideration of adding Prasad Konda, M.D. as an authorized user, the following attributes of his training and qualification were missing: The classroom and laboratory training did not state that it included the elements as stated in 10 CFR 35.290 (radiation physics and instrumentation; radiation protection; mathematics pertaining to the use and measurement of radioactivity; chemistry of byproduct material for medical use; and radiation biology). The description of the experience element was missing eluting generator systems appropriate for preparation of radioactive drugs for imaging and localization studies, measuring and testing the eluate for radionuclidic purity, and processing the eluate with reagent kits to prepare labeled radioactive drugs. The preceptor's written attestation referenced 335.9040 and 335.4010 which were not regulations that I could reference because portions of the reference were missing or was incorrect. Please resubmit Dr. Konda's training and experience which included all portions as required in 10 CFR 35.290. It is recommended that a current NRC Form 313A(aud) be used for documenting Dr. Konda's training and experience.
2. The address for Mr. Rose as stated on your letter dated December 18, 2008 was different than the mailing address as listed for the license. If you wish to change the licensee mailing address, specifically make that request.

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Medical, Academic, and Industrial Uses of Nuclear Material**; then **Regulations, Guidance, and Communications**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 7:00 a.m. to 6:30 p.m. EST, Monday through Friday (except Federal holidays).

C. Rose

2

We will continue our review upon receipt of this information. Please reply to my attention at the Region I Office and refer to Mail Control No. 143137. If you have any technical questions regarding this deficiency letter, please call me at (610) 337-5366.

If we do not receive a reply from you within 30 calendar days from the date of this letter, we will assume that you do not wish to pursue your application.

Sincerely,

Original signed by Dennis R. Lawyer
