Subject: Nuclear Regulatory Commission Agreement with the Commonwealth of Virginia

To Whom It May Concern:

03037002
X

GeoConcepts Engineering, Inc. (GeoConcepts) currently holds a materials license with the Nuclear Regulatory Commission (NRC)(License No. 45-25467-01). We are aware that the NRC has entered into an agreement with the Commonwealth of Virginia (Virginia) where Virginia will be given regulatory authority for certain licenses. The effective date of the agreement is March 31, 2009.

GeoConcepts' license with the NRC expires on March 31, 2009. We operate our regulated equipment within Virginia and other non-agreement states, and at federal facilities within agreement states. We intend to seek and obtain a materials license with Virginia and would like to continue to maintain our current NRC license so that we can continue to perform testing in non-agreement states and at federal facilities in agreement states.

This letter serves as notification of our intentions. I am unsure as to whether I need to request an amendment, a license renewal, or both. Your assistance in this matter is greatly appreciated.

Sincerely,

R. Drew Thomas, C.P.G.
Radiation Safety Officer
