MEMORANDUM TO: Ryan Whited, Chief
Environmental Projects Branch 2
Division of Site and Environmental Reviews
Office of New Reactors

FROM: Stephen Lemont, Project Manager /RA/
Environmental Projects Branch 2
Division of Site and Environmental Reviews
Office of New Reactors

SUBJECT: SUMMARY OF PUBLIC SCOPING MEETINGS CONDUCTED
RELATED TO THE COMBINED LICENSE APPLICATION REVIEW OF
THE FERMI NUCLEAR POWER PLANT, UNIT 3

The U.S. Nuclear Regulatory Commission (NRC) staff conducted two environmental scoping meetings related to the review of the Fermi Nuclear Power Plant, Unit 3 (Fermi 3) combined license (COL) application submitted by DTE Energy/Detroit Edison Company (Detroit Edison). The public meetings were conducted on Wednesday, January 14, 2009, at the Monroe County Community College La-Z-Boy Center, Meyer Theater, 1555 South Raisinville Road, Monroe, MI 48161. Each meeting included a formal presentation that was given by the NRC staff. After the presentation there was a question and answer period, after which members of the public were invited to provide comments. Approximately 100 people attended the afternoon meeting, and approximately 60 attended the evening meeting. The participants included members of the NRC staff, NRC contractors from Argonne National Laboratory, members of the public, representatives from DTE Energy and Detroit Edison, the news media, and local government officials. Public comments and questions were mainly focused on environmental impacts on Lake Erie and tributaries (including climate change effects), water quality, ecology, human health and exposure to radiation and chemical contaminants, socioeconomics, waste disposal, ESBWR design certification, need for power, alternate energy sources, and outdoor recreation.

The purpose of the meetings was to provide the public with an opportunity to participate in the environmental scoping process by providing comments on any issues that the NRC staff should consider while preparing an environmental impact statement for the Fermi 3 COL application. During each meeting, the NRC staff presentation outlined the overall licensing process under 10 CFR Part 52; provided a description of the NRC's environmental review process; discussed the environmental requirements outlined in 10 CFR Part 51; and addressed how these requirements would be implemented during the Fermi 3 COL review.

CONTACTS: Stephen Lemont, NRO/DSER
(301) 415-5163

Laura Quinn, NRO/DSER
(301) 415-2220

NUCLEAR REGULATORY COMMISSION

[Docket No. 52-033]

Detroit Edison Company Fermi Nuclear Power Plant, Unit 3 Combined License Application Notice of Intent To Prepare an Environmental Impact Statement and Conduct Scoping Process

Detroit Edison Company (Detroit Edison) has submitted an application for a combined license (COL) to build the Fermi Nuclear Power Plant, Unit (Fermi 3) at its Enrico Fermi Atomic Power Plant (Fermi) site, located on approximately 1,260 acres in Monroe County, Michigan, on Lake Erie, approximately 25 miles northeast of Toledo, Ohio and 30 miles southwest of Detroit, Michigan. Detroit Edison submitted the application for the COL to the U.S. Nuclear Regulatory Commission (NRC) by letter dated September 18, 2008, pursuant to Title 10 of the Code of Federal Regulations (10 CFR) Part 52. A notice of receipt and availability of the application, which included an environmental report (ER), was published in the Federal Register on Friday, October 17, 2008 (73 FR 61916). A notice of acceptance for docketing of the application for the COL was published in the Federal Register on December 2, 2008, 73 FR 73350. The purposes of this notice are (1) to inform the public that the NRC will be preparing an environmental impact statement (EIS) in support of the review of the COL application, and (2) to

[[Page 75143]]

provide the public with an opportunity to participate in the environmental scoping process, as described in 10 CFR 51.29.

In addition, as outlined in 36 CFR 800.8(c), "Coordination with the National Environmental Policy Act," the NRC staff plans to coordinate compliance with Section 106 of the National Historic Preservation Act (NHPA) with steps taken to meet the requirements of the National Environmental Policy Act of 1969, as amended (NEPA). Pursuant to 36 CFR 800.8(c), the NRC staff intends to use the process and documentation for the preparation of the EIS on the proposed action to comply with Section 106 of the NHPA in lieu of the procedures set forth on 36 CFR 800.3 through 800.6.

In accordance with 10 CFR 51.45 and 51.50, Detroit Edison submitted the ER as part of the application. The ER was prepared pursuant to 10 CFR parts 51 and 52 and is available for public inspection at the NRC Public Document Room (PDR) located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland 20852, or from the Publicly Available Records component of NRC's Agencywide Documents Access and Management System (ADAMS). ADAMS is accessible at <http://www.nrc.gov/readingrm/adams.html>, which provides access through the NRC's Electronic Reading Room link. The accession number in ADAMS for

the ER included in the application is ML082730660. Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS should contact the NRC's PDR Reference staff at 1-800-397-4209/301-415-4737 or by e-mail to pdr@nrc.gov. The application may also be viewed on the Internet at <http://www.nrc.gov/reactors/new-reactors/col/fermi.html>. In addition, the Ellis Reference & Information Center, Monroe County Libraries, located at 3700 South Custer Road, Monroe, Michigan 48161-9716 has agreed to make the ER available for public inspection.

The following key reference documents related to the application and the NRC staff's review processes are available through the NRC's Web site at <http://www.nrc.gov>:

- 10 CFR part 51, Environmental Protection Regulations for Domestic Licensing and Related Regulatory Function;
- 10 CFR part 52, Licenses, Certifications, and Approvals for Nuclear Power Plants;
- 10 CFR part 100, Reactor Site Criteria;
- NUREG-1555, Standard Review Plans for Environmental Reviews for Nuclear Power Plants;
- NUREG/BR-0298, Brochure on Nuclear Power Plant Licensing Process;
- Regulatory Guide 4.2, Preparation of Environmental Reports for Nuclear Power Stations;
- Regulatory Guide 4.7, General Site Suitability Criteria for Nuclear Power Stations;
- Fact Sheet on Nuclear Power Plant Licensing Process;
- Regulatory Guide 1.206, Combined License Applications for Nuclear Power Plants; and
- Nuclear Regulatory Commission Policy Statement on the Treatment of Environmental Justice Matters in NRC Regulatory and Licensing Actions.

The regulations, NUREG-series documents, regulatory guides, and fact sheet can be found under Document Collections in the Electronic Reading Room on the NRC webpage. The environmental justice policy statement can be found in the Federal Register, 69 FR 52040, August 24, 2004.

This notice advises the public that the NRC intends to gather the information necessary to prepare an EIS as part of the review of the application for a COL at the Fermi 3 site. Possible alternatives to the proposed action (issuance of the COL for Fermi 3) include no action, reasonable alternative energy sources, and alternate sites. As set forth in 10 CFR 51.20(b)(2), issuance of a full power license to operate a nuclear power reactor is an action that requires an EIS. This notice is being published in accordance with NEPA and the NRC's regulations in 10 CFR part 51.

The NRC will first conduct a scoping process for the EIS and, as soon as practicable thereafter, will prepare a draft EIS for public comment. Participation in this scoping process by members of the public and local, State, Tribal, and Federal government agencies is encouraged. The scoping process for the draft EIS will be used to accomplish the following:

- a. Define the proposed action that is to be the subject of the EIS;
- b. Determine the scope of the EIS and identify the significant issues to be analyzed in depth;
- c. Identify and eliminate from detailed study those issues that are peripheral or that are not significant;
- d. Identify any environmental assessments and other EISs that are being or will be prepared that are related to but are not part of the scope of the EIS being considered;
- e. Identify other environmental review and consultation requirements related to the proposed action;

- f. Identify parties consulting with the NRC under the NHPA, as set forth in 36 CFR 800.8(c)(1)(i);
- g. Indicate the relationship between the timing of the preparation of the environmental analyses and the Commission's tentative planning and decision-making schedule;
- h. Identify any cooperating agencies and, as appropriate, allocate assignments for preparation and schedules for completing the EIS to the NRC and any cooperating agencies; and
- i. Describe how the EIS will be prepared, including any contractor assistance to be used.

The NRC invites the following entities to participate in the scoping process:

- a. The applicant, Detroit Edison;
- b. Any Federal agency that has jurisdiction by law or special expertise with respect to any environmental impact involved or that is authorized to develop and enforce relevant environmental standards;
- c. Any affected Indian tribe;
- d. Affected State and local government agencies, including those authorized to develop and enforce relevant environmental standards;
- e. Any person who requests or has requested an opportunity to participate in the scoping process; and
- f. Any person who intends to petition for leave to intervene in the proceeding, or who has submitted such a petition, or who is admitted as a party.

In accordance with 10 CFR 51.26, the scoping process for an EIS may include a public scoping meeting to help identify significant issues related to a proposed activity and to determine the scope of issues to be addressed in an EIS. The NRC will hold two identical public scoping meetings for the EIS regarding the Fermi 3 COL application. The scoping meetings will be held at the Monroe County Community College's La-Z-Boy Center Meyer Theater, located at 1555 South Raisinville Road, Monroe, Michigan 48161, on Wednesday, January 14, 2009. The first meeting will convene at 1 p.m. and will continue until approximately 4 p.m. The second meeting will convene at 7 p.m., with a repetition of the overview portions of the first meeting, and will continue until approximately 10 p.m. Additionally, the NRC staff will host informal discussions during an open house for one hour prior to the start of each public meeting. In the event that the La-Z-Boy Center Meyer Theater is closed due to weather conditions on January 14, 2009, the open houses and scoping meetings would be held on Thursday, January 15, 2009, during the same hours as listed above. The meetings will be transcribed and will

[[Page 75144]]

include the following: (1) An overview by the NRC staff of the NEPA environmental review process, the proposed scope of the EIS, and the proposed review schedule; and (2) the opportunity for interested government agencies, organizations, and individuals to submit comments or suggestions on the environmental issues or the proposed scope of the EIS. No formal comments on the proposed scope of the EIS will be accepted during the open house informal discussions. To be considered, comments must be provided either at the transcribed public meeting or in writing, as discussed below.

Persons may register to attend or present oral comments at the meeting on the scope of the NEPA review by contacting Mr. Stephen Lemont or Ms. Michelle Moser by telephone at 1-800-368-5642, extension 5163 or 6509, or by e-mail to the NRC at Fermi3.COLEIS@nrc.gov no later than 5 p.m. EST on January 6, 2009. Members of the public may also register to speak at the meeting prior to the start of the session. Individual oral comments may be limited by the time

available, depending on the number of persons who register. Members of the public who have not registered may also have an opportunity to speak, if time permits. Public comments will be considered in the scoping process for the EIS. If special equipment or accommodations are needed to attend or present information at the public meeting, the need should be brought to Mr. Stephen Lemont's attention no later than 5 p.m. EST on December 30, 2008, so that the NRC staff can determine whether the request can be accommodated.

Members of the public may send written comments on the scope of the Fermi 3 COL EIS to the Chief, Rulemaking, Directives, and Editing Branch, Division of Administrative Services, Office of Administration, Mailstop TWB-05-B01M, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, and should cite the publication date and page number of this Federal Register notice. To ensure that comments will be considered in the scoping process, written comments must be postmarked or delivered by February 9, 2009. Electronic comments may be sent by e-mail to the NRC at Fermi3.COLEIS@nrc.gov. Electronic submissions must be sent no later than February 9, 2009, to ensure that they will be considered in the scoping process. Comments will be made available electronically and will be accessible through the NRC's Electronic Reading Room link <http://www.nrc.gov/reading-rm/adams.html>. The NRC staff may, at its discretion, consider comments submitted after the end of the comment period.

Participation in the scoping process for the EIS does not entitle participants to become parties to the proceeding to which the EIS relates. A Notice of a hearing and opportunity to petition for leave to intervene in the proceeding on the application for a COL will be published in a future Federal Register notice.

At the conclusion of the scoping process, the NRC staff will prepare a concise summary of the determination and conclusions reached on the scope of the environmental review, including the significant issues identified, and will send this summary to each participant in the scoping process for whom the staff has an address. The staff will then prepare and issue for comment the draft EIS, which will be the subject of a separate Federal Register notice and a separate public meeting. Copies of the draft EIS will be available for public inspection at the PDR through the above-mentioned address and one copy per request will be provided free of charge. After receipt and consideration of comments on the draft EIS, the NRC will prepare a final EIS, which will also be available to the public.

Information about the proposed action, the EIS, and the scoping process may be obtained from Mr. Stephen Lemont at 301-415-5163 or by e-mail at Stephen.Lemont@nrc.gov.

Dated at Rockville, Maryland, this 3rd day of December 2008.

For the Nuclear Regulatory Commission.

Scott Flanders,
Director, Division of Site and Environmental Reviews, Office of New Reactors.

[FR Doc. E8-29178 Filed 12-9-08; 8:45 am]
BILLING CODE 7590-01-P

Welcome to the U.S. Nuclear Regulatory Commission's Open House for the Public Scoping Meeting Related to the Fermi Nuclear Plant, Unit 3 Combined License Application

This open house is intended to provide an opportunity for interested members of the public and staff from other Federal agencies and from Tribal, State, local and other agencies to interact with the U.S. Nuclear Regulatory Commission (NRC) staff in an informal information exchange. The NRC is gathering information necessary to prepare an Environmental Impact Statement (EIS) as part of its review for the proposed combined license (COL) for the Fermi Nuclear Plant, Unit 3 (Fermi 3).

If you wish to provide formal comments regarding the scope of the environmental review for the Fermi 3 COL, they must be provided by **February 9, 2009**. Comments received after this date will be considered if it is practical to do so, but the NRC staff is able to assure consideration only for comments received on or before February 9, 2009.

Comments may be submitted today at the scoping meetings or in writing, via regular mail or email.

Written comments should be mailed to:

Chief, Rulemaking, Directives, and Editing Branch
Division of Administrative Services
Office of Administration
Mailstop TWB-05-B01M
U.S. Nuclear Regulatory Commission
Washington, DC 20555-0001

Electronic comments should be sent to:

Fermi.COLEIS@nrc.gov

Thank you for your participation in the scoping process.

Public Scoping Meeting Fermi Nuclear Power Plant, Unit 3 Combined License Application Environmental Review

Gregory Hatchett, Branch Chief
Stephen Lemont, Project Manager
Division of Site and Environmental Reviews

January 14, 2009

1

Purposes and Overview of this Meeting

- Solicit your input to the environmental scoping process
- Discuss combined license application review process
- Explain NRC's National Environmental Policy Act (NEPA) process during review of a combined license application
- Present tentative schedule for environmental review
- Describe how you can participate in the regulatory process

2

Participants in NRC Licensing Process for Fermi Nuclear Power Plant, Unit 3

NRC

- Commissioners
- Staff members
- Hearing Boards
- Advisory Committee on Reactor Safeguards

Stakeholders

- Residents of the community
- Public interest groups
- Other Federal agencies
- Tribal councils
- State entities
- U.S.-Canada joint commissions
- Local officials and others

License Applicant

- Detroit Edison Company

3

Relevant Laws & Regulations

The NRC regulates civilian uses of nuclear materials
to protect the public health and safety
and the environment

- Atomic Energy Act of 1954, as amended
- National Environmental Policy Act (NEPA) of 1969
- Title 10 of the Code of Federal Regulations (CFR), Parts 51 and 52
- Other laws and regulations

4

Combined License (COL)

Authorization from the NRC to construct and operate a nuclear power plant at a specific site and in accordance with applicable Federal laws and regulations

- Detroit Edison submitted an application for a COL for the Fermi Nuclear Power Plant, Unit 3 (Fermi 3) on September 18, 2008
- Detroit Edison's COL application includes the Fermi 3 Environmental Report

5

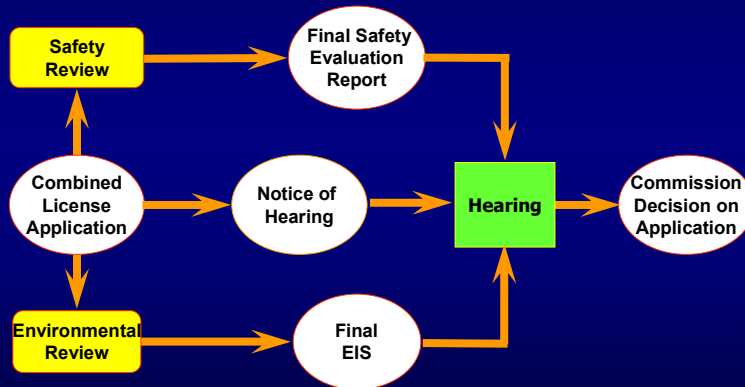

Nuclear Reactor Design and COL Application Reviews

- Standard Design Certification Review (ongoing)
 - GE-Hitachi Nuclear Energy Americas, LLC ESBWR
- COL Application Review
 - Safety Review for ESBWR design at the Fermi Nuclear Power Plant site
 - Environmental Review of potential impacts of Unit 3 construction and operation at the Fermi site, adjacent to the existing Unit 2

6

Combined License Application Review Process

7

National Environmental Policy Act

- NEPA requires Federal agencies to use a systematic approach to consider environmental impacts
- An Environmental Impact Statement (EIS) is required for major Federal actions that may significantly affect the quality of the human environment
- Issuing a combined license is considered a major Federal action

8

NRC Environmental Review

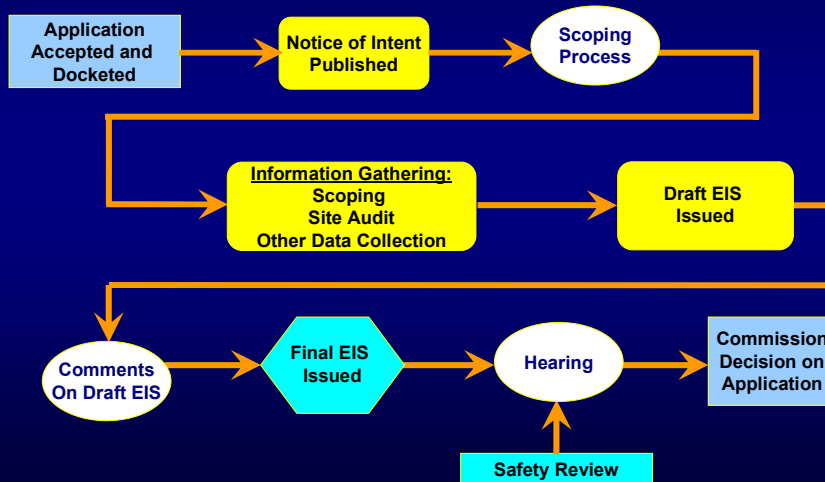

- Evaluate potential environmental impacts of construction and operation of a new nuclear facility at the Fermi site
- Informed and systematic decision making
 - 10 CFR Part 51 - NRC's regulations for implementing NEPA
 - NUREG-1555 - NRC's "Environmental Standard Review Plan", provides review guidance
- Provide for public involvement
 - Scoping comment period
 - Draft EIS comment period
- Clearly document our environmental findings
- Maintain an open and transparent review process

9

Environmental Review Process

Environmental Review Process

10

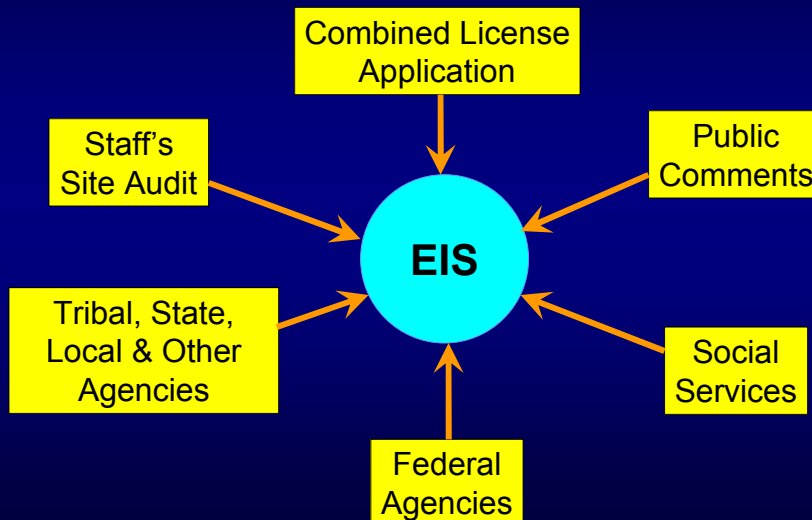

Fermi 3 Environmental Scoping

- This process helps determine the scope of the environmental review and EIS
- Comments during the scoping period can be provided through February 9, 2009
- The Scoping Summary Report will provide responses to comments received (~July 2009)

11

Information Gathering

12

Environmental Review Team Expertise

Environmental Review Schedule

- Review of Environmental Report started
- Scoping period in progress
 - Notice of Intent published December 10, 2008
 - Comment period ends February 9, 2009
- Issue Draft EIS ~2010
- Public Meeting on Draft EIS ~2010
- Issue Final EIS ~2011

Public Involvement

- Public interaction during environmental review
- Hearing
 - Covers both environmental and safety issues
 - Atomic Safety Licensing Board (ASLB) mandatory hearing and, if necessary, contested hearing(s)
 - Interested persons can petition to intervene

Obtain more information on NRC's website at:
<http://www.nrc.gov/reactors/new-reactors/col/fermi.html>

15

Hearing and Petition to Intervene

- Petition to intervene
 - Deadline to file is 60 days from publication of Federal Register Notice of Opportunity for Hearing (published January 8, 2009 in Federal Register)
 - Rules governing intervention petitions: 10 CFR 2.309
- Digital certificate is required
- Allow 10 business days for obtaining the digital certificate
- Instructions for e-filing will be in the hearing notice and at www.nrc.gov/site-help/e-submittals.html
- E-filing Help Desk Phone Number: 1 (866) 672-7640

16

NRC Fermi 3 Contacts and Information

- **Stephen Lemont, Environmental Project Manager**
 - 1 (800) 368-5642, extension 5163
- **Chandu Patel, Lead Safety Project Manager**
 - 1 (800) 368-5642, extension 3025
- **Public Document Room Help Desk**
 - Telephone: 1 (800) 397-4209
 - Email: PDR.Resource@nrc.gov

Fermi 3 documents can be viewed at:

- **NRC's website:**
<http://www.nrc.gov/reactors/new-reactors/col/fermi.html>
- **Monroe County Libraries, Ellis Reference and Information Center**

17

Environmental Scoping Comments

Provide Scoping Comments:

- **At this scoping meeting**
- **By mail:** Chief, Rulemaking, Directives, and Editing Branch
Division of Administrative Services
Office of Administration
Mailstop TWB-05-B01M
U.S. Nuclear Regulatory Commission
Washington, DC 20555-0001
- **By email:** Fermi3.COLEIS@nrc.gov

18
