

**R.M.D. Operations LLC (RMD)
NRC License SUC-1591**

19 November 2008

**Affidavit of Duane W. Bollig
Vice President for Business Development and Government Affairs for
R.M.D. Operations LLC**

1. My name is Duane W. Bollig and I am the Vice-President for Business Development and Government Affairs for R.M.D. Operations, LLC (RMD). I am authorized to execute this affidavit on behalf of RMD and may bind RMD to the statements rendered herein;
2. On October 16, 2008, RMD submitted a license amendment request to the NRC, asking the agency to issue an amended license with Water Remediation Technology LLC (WRT) named as the licensee. The amendment document explained that on or about October 31, 2008, a series of corporate consolidations will be taking place within the WRT International LLC group of companies, which includes RMD and WRT. Ultimately, RMD and its sister companies would be consolidated into Water Remediation Technology LLC, and WRT will assume all of the obligations and rights of RMD, including those of the NRC license SUC-1591;
3. As part of its review of this amendment request, in an e-mail sent on October 28, 2008, the NRC requested, in part, certain financial information (e.g., balance sheet summaries, annual cash flow actuals and projections, etc.), presumably to document WRT's ability to perform the licensed activities;
4. RMD considers the information submitted to address the Commission's request, either herein, along with this affidavit, or under separate cover, to include confidential commercial or financial information pursuant to 10 CFR 2.390(a)(4). These submittals responding to the agency's request for information include any future submittals responding to any follow-on questions from the agency regarding this subject. RMD hereby requests that such pages be withheld from public disclosure. RMD makes this request because the financial statements and projections, which are based in part on WRT's sales projections, pricing strategy, and information regarding WRT's uranium water treatment program are not available in any public sources;
5. Accordingly, and pursuant to NRC regulations, RMD has labeled the financial information submitted with the statement "**Confidential Information Submitted Under 10 CFR 2.390: Proprietary.**"
6. Withholding the financial information designated by RMD for confidentiality protection will not cause any harm to members of the public. Members of the public will gain no tangible benefit from the release of this information, however, RMD will suffer significant adverse business and economic impacts if this financial information and projections are released to the public, which includes potential RMD competitors;

7. RMD fully understands that withholding the designated data and information does not deprive any independent party from inspecting the confidential information under the terms of an appropriate protective order in the context of an NRC licensing hearing or other administrative proceeding.

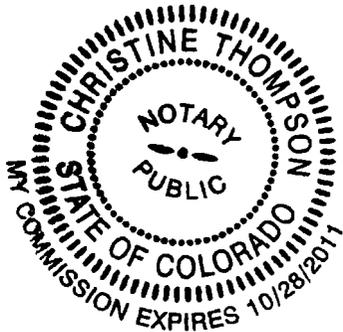

I declare on this 19th day of November, 2008, at Wheat Ridge, Colorado, under penalty of perjury that the foregoing is true and correct.

Duane W. Bollig

ACKNOWLEDGEMENT

SUBSCRIBED and SWORN TO before me, the undersigned authority, on November 19th, 2008 by Duane W. Bollig.
