**INSPECTOR LICENSE NUMBER 225  
 RENEWAL APPROVAL**

Dear Ms. Charlton:

Your renewal application for a license to inspect radiation machines has been approved by the Department. By this letter you are licensed to inspect radiation machines including machines having energy levels up to one million electron volts. You are not approved to provide medical physicist services to mammography facilities in Maryland. Your license number is 225. The license expiration date is March 31, 2011.

As a State licensed inspector, you will be expected to perform inspections that will be used by the Department to certify that the requirements of COMAR 26.12.01.01, "Regulations for Control of Ionizing Radiation (1994)", and COMAR 26.12.02, "Inspection and Certification of Radiation Machines", are met. A copy of COMAR 26.12.02 is enclosed. You are provided with the "Catalog of Reference Inspection Procedures" (CRIP).

Your attention is directed to paragraph 26.12.02.03.C(1) dealing with *Conflict of Interest*. It is MDE policy to refuse to issue a license to anyone found in violation of those listed provisions. The Department has the authority to suspend or revoke the license of anyone found in violation of these provisions. Should you have any questions or require additional information, please contact Ms. Eva Nair at (410) 537-3193 or 800-633-6101 ext 3193.

Sincerely,

Roland G. Fletcher, Manager  
 Radiological Health Program  
 Air and Radiation Management Administration
