Larry,

Yes, these clarifications apply to the North Trend amendment as well.

Regards,

Ron

Ron:

These same two items were addressed in the RAI's for the North Trend Amendment. Does this also apply to that amendment?

Larry

Subject: Clarification of Request For Additional Information items

Larry,

This e-mail is to provide clarification for two items from NRC's Request for Additional Information (RAI), regarding the Crow Butte License Renewal, transmitted to you in our letter dated January 16, 2009. The clarifications are as follows:

5.8.3.1.a :

For uranium monitoring in the plant, please provide the numerical value of the LLD that will be used and the basis for this value.

6.1.2.a:

This RAI question was based on the assumption that consumptive use was assumed to increase during restoration. However, since it doesn't and since CBR is constructing a model that will answer this question, CBR can disregard that RAI.

Please contact me if you have further questions regarding these issues.

Regards,

Ron
