

SAFEGUARDS INFORMATION

February 3, 2009

Mr. Gordon L. Johnston
Site Vice President
Florida Power and Light Company
St. Lucie Plant Units 1 and 2
6501 S. Ocean Drive
Jensen Beach, FL 34957

SUBJECT: ST. LUCIE PLANT UNITS 1 AND 2 SECURITY INSPECTION
05000335/2008201 and 05000389/2008201

Dear Mr. Johnston:

On April 11, 2008, the U.S. Nuclear Regulatory Commission (NRC) completed a security baseline inspection at the St. Lucie Plant, Units 1 and 2. The inspection covered one or more of the key attributes of the security cornerstone of the NRC's Reactor Oversight Process. The enclosed inspection report documents the inspection results, which were discussed on April 11, 2008, with you, and other members of your staff.

The inspection examined activities conducted under your license as they relate to security and compliance with the Commission's rules and regulations and with the conditions of your license. The inspector reviewed selected procedures and records, observed activities, and interviewed personnel. No findings of significance were identified.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system ADAMS. ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (The Public Electronic Reading Room). However, because of the security-related concerns contained in the enclosure, and in accordance with 10 CFR 2.390, a copy of this letter's enclosures will not be available for public inspection.

Enclosure Contains Safeguards Information. Upon separation, this page is decontrolled.
