

February 4, 2009

MEMORANDUM TO: Gregory P. Hatchett, Chief
Environment Projects Branch 1
Division of Site and Environmental Reviews
Office of New Reactors

FROM: Bruce Olson, Project Manager **/RA/**
Environment Projects Branch 1
Division of Site and Environmental Reviews
Office of New Reactors

SUBJECT: NOTICE OF PUBLIC MEETING TO DISCUSS ENVIRONMENTAL
SCOPING PROCESS FOR THE PROPOSED CALLAWAY PLANT
UNIT 2 COMBINED LICENSE APPLICATION
(TAC NO. RC3747)

DATE AND TIME: Wednesday, February 18, 2009
First Session: 1:00 p.m. – 4:00 p.m.
Second Session: 6:00 p.m. – 9:00 p.m.

LOCATION: Champ Auditorium, Westminster College
501 Westminster Avenue
Fulton, MO 65251

PURPOSE: To conduct a transcribed public meeting to provide members of the public with an opportunity to provide their comments on what environmental issues the Nuclear Regulatory Commission (NRC) should consider during its review of the combined license (COL) application for the proposed Callaway Plant Unit 2. This meeting will be conducted as part of the scoping process outlined in 10 CFR Part 51 to support development of an environmental impact statement in support of the application. See the enclosed agenda and *Federal Register* Notice (74 FR 4257).

The COL application is available on the NRC's web page at <http://www.nrc.gov/reactors/new-reactors/col/callaway.html>. It is also available through the web-based version of the NRC's Agency-wide Documents Access and Management System (ADAMS), which can be found at <http://www.nrc.gov/reading-rm/adams.html>. The accession number for the application received on July 24, 2008 is ML082520869.

CONTACTS: Bruce Olson, NRO/DSER
(301) 415-3731
Bruce.Olson@nrc.gov

John Fringer, NRO/DSER
(301) 415-6208
John.Fringer@nrc.gov

* Commission's Policy Statement on "Enhancing Public Participation in NRC Meetings"
(67 FR 36920), May 28, 2002

PURPOSE (cont.) Both formal sessions will be preceded by an informal "open house" beginning one hour prior to each session for those who wish to attend. The open house will provide members of the public with an opportunity to talk informally one-on-one with NRC staff. Members of the public may register to present oral comments at this meeting by contacting Mr. Bruce Olson at (800) 368-5642, ext. 3731 or by e-mail at Callaway.COLEIS@nrc.gov by February 11, 2009. Those who wish to make comments may also register at the meeting until 5 minutes of the start of each session. Individual oral comments may be limited by the time available, depending on the number of persons who register.

Mr. Bruce Olson will need to be contacted no later than February 11, 2009, if special equipment or accommodations are needed to attend or present information at the public meeting.

CATEGORY 3:* This is a Category 3 Meeting. The public is invited to participate in this meeting by providing comments and asking questions.

PARTICIPANTS: NRC Members of the Public Who Register to Speak

Chet Poslusny, Facilitator
Gregory P. Hatchett, Branch Chief, NRO
Bruce Olson, NRO

Docket No: 52-037

Enclosures:

1. Agenda
2. Federal Register Notice (ML083650107)

**AGENDA FOR PUBLIC MEETING TO DISCUSS ENVIRONMENTAL
SCOPING PROCESS FOR THE PROPOSED CALLAWAY PLANT UNIT 2
COMBINED LICENSE APPLICATION**

WEDNESDAY, FEBRUARY 18, 2009

Two Meeting Sessions - 1:00 p.m. to 4:00 p.m. and 6:00 p.m. to 9:00 p.m.*

- I. Welcome and purpose of meeting - 5 minutes (Chet Poslusny, Gregory Hatchett)
- II. Overview of the combined license process - 5 minutes (Bruce Olson)
- III. Overview of environmental review process - 15 minutes (Bruce Olson)
- IV. Public comments - 2 ½ hours (Chet Poslusny)
- V. Closing/availability of transcripts, etc. - 5 minutes (Nilesh Chokshi)

*Note - The NRC staff will host informal discussions one hour prior to the meeting. No comments on the scope of the environmental review will be accepted during the informal discussions. To be considered, comments must be provided either at the transcribed public meeting (see agenda, above) or in writing, as described in the *Federal Register* notice.

NUCLEAR REGULATORY COMMISSION

[Docket No. 52-037; NRC-2008-0556]

Union Electric Company d/b/a Ameren UE Callaway Plant Unit 2 Combined License
Application; Notice of Intent To Prepare an Environmental Impact Statement and Conduct
Scoping Process

Union Electric Company d/b/a Ameren UE (AmerenUE) has submitted an application for a combined license (COL) to build and operate Unit 2 at its Callaway Plant site, located on approximately 2,800 acres 10 miles southeast of the city of Fulton in Callaway County, Missouri, and 80 miles west of the St. Louis metropolitan area. AmerenUE submitted the application for the COL to the U.S. Nuclear Regulatory Commission (NRC) by letter dated July 24, 2008, pursuant to Title 10 of the Code of Federal Regulations (10 CFR) Part 52. A notice of receipt and availability of the application, including the environmental report (ER), was published in the Federal Register on October 9, 2008 (73 FR 59677). A notice of acceptance for docketing of the application for the COL was published in the Federal Register on December 18, 2008 (73 FR 77078). A notice of hearing and opportunity to petition for leave to intervene in the proceeding of the application will be published in a future Federal Register. The purpose of this notice is to inform the public that the NRC staff will be preparing an environmental impact statement (EIS) as part of the review of the application for the COL, and to provide the public with an opportunity to participate in the environmental scoping process as defined in 10 CFR 51.29. The U.S. Army Corps of Engineers (Corp), Kansas City District, has requested to participate in the preparation of the EIS as a cooperating agency; the NRC has accepted their request. The agencies will cooperate according to the process set forth in the MOU signed by the NRC and the Corps, and was published in the Federal Register on September 25, 2008 (73 FR 55546).

In addition, as outlined in 36 CFR 800.8(c), "Coordination with the National Environmental Policy Act," the NRC staff plans to coordinate compliance with Section 106 of the National Historic Preservation Act (NHPA) with steps taken to meet the requirements of the National Environmental Policy Act of 1969, as amended (NEPA). Pursuant to 36 CFR 800.8(c), the NRC staff intends to use the process and documentation for the preparation of the EIS on the proposed action to comply with Section 106 of the NHPA in lieu of the procedures set forth in 36 CFR 800.3 through 800.6.

In accordance with 10 CFR 51.45 and 51.50, AmerenUE submitted the ER as part of the application. The ER was prepared pursuant to 10 CFR Parts 51 and 52 and is available for public inspection at the NRC Public Document Room (PDR) located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland 20852 or from the Publicly Available Records (PAR) component of NRC's Agency-wide Documents Access and Management System (ADAMS). ADAMS is accessible at <http://www.nrc.gov/reading-rm/adams.html>, which provides access through the NRC's Electronic Reading Room (ERR) link. The accession number in ADAMS for the environmental report included in the application is ML082520869.

Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS should contact the NRC's PDR Reference staff at 1-800-397-4209/301-415-4737 or by e-mail to pdr@nrc.gov. The application may also be viewed on the Internet at <http://www.nrc.gov/reactors/new-reactors/col/callaway.html>. In addition, the Callaway County Public Library, 710 Court Street, Fulton, MO 65251; and Ellis Library in University of Missouri, 106-B Ellis Library, Columbia, MO 65201-5149 have agreed to make the ER available for public inspection. The following key reference documents related to the application and the NRC staff's review processes are available through the NRC's Web site at <http://www.nrc.gov>:

- a. 10 CFR Part 51, Environmental Protection Regulations for Domestic Licensing and Related Regulatory Functions;
- b. 10 CFR Part 52, Licenses, Certifications, and Approvals for Nuclear Power Plants;
- c. 10 CFR Part 100, Reactor Site Criteria;
- d. NUREG-1555, Standard Review Plans for Environmental Reviews for Nuclear Power Plants;
- e. NUREG/BR-0298, Brochure on Nuclear Power Plant Licensing Process;
- f. Regulatory Guide 4.2, Preparation of Environmental Reports for Nuclear Power Stations;
- g. Regulatory Guide 4.7, General Site Suitability Criteria for Nuclear Power Stations;
- h. Fact Sheet on Nuclear Power Plant Licensing Process;
- i. Regulatory 1.206, Combined License Applications for Nuclear Power Plants; and
- j. Nuclear Regulatory Commission Policy Statement on the Treatment of Environmental Justice Matters in NRC Regulatory and Licensing Actions.

The regulations, NUREG-series documents, regulatory guides, and the fact sheet can be found under Document Collections in the ERR on the NRC Web page. The environmental justice policy Statement can be found in the Federal Register, 69 FR 52040 August 24, 2004.

This notice advises the public that the NRC intends to gather the information necessary to prepare an EIS in support of the review of the application for COL at the Callaway Plant Unit 2 site. Possible alternatives to the proposed action (issuance of the COL for the Callaway Plant Unit 2 site) include no action, reasonable alternative energy sources, and alternate sites. As set forth in 10 CFR 51.20(b)(2), issuance of a COL under 10 CFR Part 52 is an action that requires an EIS. This notice is being published in accordance with NEPA and the NRC's regulations found in 10 CFR Part 51. The NRC will first conduct a scoping process for the EIS and immediately thereafter will prepare a draft EIS for public comment. Participation in this scoping process by members of the public, local, State, Tribal, and Federal government agencies is encouraged. The scoping process for the draft EIS will be used to accomplish the following:

- a. Define the proposed action that is to be the subject of the EIS;
- b. Determine the scope of the EIS and identify the significant issues to be analyzed in-depth;
- c. Identify and eliminate from detailed study those issues that are peripheral or that are not significant;
- d. Identify any environmental assessments and other EISs that are being or will be prepared that are related to but are not part of the scope of the EIS being considered;
- e. Identify other environmental review and consultation requirements related to the proposed action;
- f. Identify parties consulting with the NRC under the NHPA, as set forth in 36 CFR 800.8(c)(1)(i);

- g. Indicate the relationship between the timing of the preparation of the environmental analyses and the Commission's tentative planning and decision making schedule;
- h. Identify any cooperating agencies and, as appropriate, allocate assignments for preparation and schedules for completing the EIS to the NRC and any cooperating agencies; and
- i. Describe how the EIS will be prepared, including any contractor assistance to be used.

The NRC invites the following entities to participate in the scoping process:

- a. The applicant, AmerenUE;
- b. Any Federal agency that has jurisdiction by law or special expertise with respect to any environmental impact involved or that is authorized to develop and enforce relevant environmental standards;
- c. Affected State and local government agencies, including those authorized to develop and enforce relevant environmental standards,
- d. Any affected Indian tribe;
- e. Any person who requests or has requested an opportunity to participate in the scoping process; and
- f. Any person who intends to petition for leave to intervene.

In accordance with 10 CFR 51.26, the scoping process for an EIS may include a public scoping meeting to help identify significant issues related to a proposed activity and to determine the scope of issues to be addressed in an EIS. The NRC will hold two identical public scoping meetings for the EIS regarding the AmerenUE COL application. The scoping meetings will be held at the Champ Auditorium in Westminster College, 501 Westminster Ave., Fulton, MO 65251, on Wednesday, February 18, 2009. The first meeting will convene at 1 p.m. and will continue until approximately 4 p.m. The second meeting will convene at 6 p.m. and will continue until approximately 9 p.m. The meetings will be transcribed and will include the following: (1) An overview by the NRC staff of the NEPA environmental review process (the proposed scope of the EIS) and the proposed review schedule; (2) the opportunity for interested government agencies, organizations, and individuals to submit comments or suggestions on the environmental issues or the proposed scope of the EIS. Additionally, the NRC staff will host informal discussions for one hour prior to the start of each public meeting. No formal comments on the proposed scope of the EIS will be accepted during the informal discussions. To be considered, comments must be provided either at the transcribed public meeting or in writing, as discussed below.

Persons may register to attend or present oral comments at the meeting on the scope of the NEPA review by contacting Mr. Bruce Olson or Mr. John Fringer at 1-800-368-5642, extension 3731 or 6208, respectively, or by e-mail to the NRC at Callaway.COLEIS@nrc.gov no later than February 11, 2009. Members of the public may also register to speak at the meeting prior to the start of the session. Individual oral comments may be limited by the time available, depending on the number of persons who register. Members of the public who have not registered may also have an opportunity to speak, if time permits. Public comments will be considered in the scoping process for the EIS. If special equipment or accommodations are needed to attend or present information at the public meeting, the need should be brought to Mr. Bruce Olson's attention no later than February 4, 2009, so that the NRC staff can determine whether the request can be accommodated.

Members of the public may send written comments on the scope of the Callaway Plant Unit 2 COL environmental review to the Chief, Rulemaking, Directives and Editing Branch, Division of Administrative Services, Office of Administration, Mailstop TWB-05-B01M, U.S. Nuclear

Regulatory Commission, Washington, DC 20555-0001, and should cite the publication date and page number of this Federal Register notice. To be considered in the scoping process, written comments must be postmarked or delivered by March 24, 2009. Electronic comments may be sent by e-mail to the NRC at Callaway.COLEIS@nrc.gov. Electronic submissions must be sent no later than the comment period end date of March 24, 2009, to be considered in the scoping process. Comments will be made available electronically and will be accessible through the NRC's Electronic Reading Room link <http://www.nrc.gov/reading-rm/adams.html>.

Participation in the scoping process for the EIS does not entitle participants to become parties to the proceeding to which the EIS relates. A Notice of a hearing and opportunity to request leave to intervene in the proceeding on the application for COL will be published in a future Federal Register notice.

At the conclusion of the scoping process, the NRC staff will prepare a concise summary of the determination and conclusions reached on the scope of the environmental review reached including the significant issues identified, and will send this summary to each participant in the scoping process for whom the staff has an address. The staff will then prepare and issue for comment the draft EIS, which will be the subject of a separate Federal Register notice and a separate public meeting. Copies of the draft EIS will be available for public inspection at the PDR through the above-mentioned address and one copy per request will be provided free of charge. After receipt and consideration of comments on the draft EIS, the NRC will prepare a final EIS, which will also be available to the public.

Information about the proposed action, the EIS, and the scoping process may be obtained from Mr. Bruce Olson at U.S. Nuclear Regulatory Commission, Mail Stop T-6-D38M, Washington, DC 20555-0001, or by phone at 301-415-3731, or by e-mail at bruce.olson@nrc.gov and from Mr. John Fringer at 301-415-6208 or by e-mail at john.fringer@nrc.gov.

Dated at Rockville, Maryland, this 14th day of January 2009.

For the Nuclear Regulatory Commission.

Scott Flanders,
Director, Division of Site and Environmental Reviews, Office of New Reactors.
