RE: Addition of Authorized User
License No. 29-20876-01; Docket No. 030-21288
Mail Control No. 143173

Dear Sir/Madam:

Per Mr. Thomas Thompson's request in his email of February 2, 2009, please see below the information regarding training and experience of two new users pending the NRC approval, Dimitri Pestov, Ph.D. Assistant Professor, Department of Cell Biology and John Pastorino, Ph.D., Assistant Professor, Department of Molecular Biology. They will be using the radioisotopes listed in Item 11.A. for Items 6.A. through 6.I.

As shown in the attached table, Professors Pestov and Pastorino have extensive experience and training in handling tracer levels of radioactive materials. Since they both joined our institution recently, they will attend the UMDNJ-SOM training sessions to refresh their formal training and to acquaint them with the institutional procedures and practices.

If you have questions and/or need additional information, please contact me (856-566-6066, yoojh@umdnj.edu).

Thank you.

Sincerely yours,

Jeong-Sook H. Yoo, Ph.D., Director
