Advisory Committee on Reactor Safeguards

SUBJECT: DRAFT FINAL REGULATORY GUIDE 1.212

During the 559th meeting of the Advisory Committee on Reactor Safeguards, February 5-7, 2009, the Committee considered the draft final Regulatory Guide 1.212, "Sizing of Large Lead-Acid Storage Batteries," and decided not to review it. This Guide was issued final in November 2008 without providing an opportunity for Committee review. In the future, the Committee prefers to have an opportunity to review regulatory guides prior to their issuance either for public comment or in final form.
