General Comment

Thank you for the opportunity to comment.

I am writing in regard to "Detroit Edison Company Fermi Nuclear Power Plant, Unit 3 Combined License Application Notice of Intent to Prepare an Environmental Impact Statement and Conduct Scoping Process" (Docket ID NRC-2008-05766)

I am concerned about the impact that another nuclear power plant would have on those with compromised immune systems. What studies have been done on the cumulative low levels of radiation on pregnant women, children and the elderly?

Can you assure us that the construction of Fermi III will not effect the health of those with compromised immune system?

Thank you for your consideration.

Genevieve Petrak IHM
