DCS-NRC-000224

Subject: Docket No. 70-3098
Construction Authorization No. CAMOX-001
Submittal of MOX Project Quality Assurance Plan Revision 6 Change 1

Shaw AREVA MOX Services, LLC (MOX Services) hereby submits to the U. S. Nuclear Regulatory Commission (NRC) Revision 6, Change 1 of the MOX Project Quality Assurance Plan (MPQAP) for the design and construction of the Mixed Oxide Fuel Fabrication Facility (MFFF). This revision supersedes Revision 6 in its entirety. Since any changes that were made in Revision 6 are included in Revision 6, Change 1, the NRC may discontinue its review of Revision 6.

Enclosure (1) provides the revised MPQAP. The only changes in Revision 6, Change 1 are the inclusion in the MPQAP of the definitions of *basic component*, *critical characteristics*, *dedicating entity* and *dedication* consistent with the NRC letter to MOX Services of March 20, 2008.

MOX Services has determined that the changes in Revision 6, Change 1 do not represent a reduction in commitments in the previously NRC approved MPQAP and therefore, can be implemented immediately.

If you have any questions, please feel free to contact me or Mr. George Shell, Quality Assurance Manager, at 803-819-2866.

Sincerely,

A handwritten signature in blue ink that reads "D Stinson / for".

David Stinson
President and COO
