Ref: Docket No. 71-9185 and TAC No. L24074

Dear Mrs. Glenny,

In response to your request for additional information (RAI) please find the attached evaluation of a 9-meter (30 foot) drop test at a shallow orientation could result in lid separation. The analysis was performed by Mr. Gary Clark of Packing Technology, Tacoma, Washington.

If you have any questions or need additional information, please contact me.

Sincerely,

Jerry A. Tucker
