## General Comment

I am a Sister, Servant of the Immaculate Heart of Mary and live in the city of Monroe, and am disappointed about the suggestion of building Fermi 3.

First the expense of building at this time is prohibitive in this time of recession, and secondly, the people of Monroe do not need more risks to healthy living.

Governor Granholm announced just this week that Wind Turbines were to be built in Monroe. This is a much safer and cleaner way to make electricity. Let's keep Monroe safe and clean.
