

February 17, 2009

Mr. Ross T. Ridenoure
Senior Vice President and
Chief Nuclear Officer
Southern California Edison Company
San Onofre Nuclear Generating Station
P.O. Box 128
San Clemente, CA 92674-0128

Dear Mr. Ridenoure:

In accordance with national policy, all companies that want to retain a favorable Foreign Ownership, Control or Influence (FOCI) determination are required to certify annually the following information:

1. No significant changes have occurred in the extent and nature of FOCI that would affect answers to the questions provided in the organization's Certificate Pertaining to Foreign Interest;
2. No changes have occurred in the organization's ownership; and
3. No changes have occurred in the organization's officers, directors, and executive personnel.

Our records indicate that San Onofre Nuclear Generating Station's annual certification is due. The same certification is also required for any tier parents associated with your company. To assist you in this effort, enclosed is an Annual Certification form that must be signed and dated by an authorized official identified on your Owners, Officers, Directors, and Executive Personnel (OODEPs) list.

If your company has undergone any of the changes listed above, please identify those changes to me in writing along with documentation that supports the changes. In addition, please include an explanation as to why these changes were not reported at the time they occurred. It should also be noted that a Facility Security Officer (FSO) must be designated and included on your company's OODEPs list. If you have not previously included your FSO on your OODEPs list, please do so and submit a new OODEPs list to me as well. A blank OODEPs form is provided for your use if needed. Please respond to this request within 30 days from the date of this letter.

R. T. Ridenoure
