FEB 05 2009

Timothy Jones.
Radiation Safety Officer
American Renolit Corporation
1207 E. Lincolnway
LaPorte, IN 46350-3987

Dear Mr. Jones:

Enclosed is Amendment No. 10 to your NRC Material License No. 13-24638-01 in accordance with your request. Please note that the changes made to your license are printed in **bold** font.

Please note license condition 15 as written in the previous amendment (#9) to your license has been removed because Mr. Johnson is no longer in your employ and your current amendment request did not address this issue. If you wish to perform the function of replacing cover films from the devices in the future, provide procedures as referenced in your letter dated July 17, 2000.

In addition, license conditions 16 through 19 have been added to your license. These changes were made in accordance with current NRC licensing policy and may affect your radiation safety program.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Sincerely,

A handwritten signature in cursive script that reads "Toye L. Simmons".

Toye L. Simmons
