General Comment

Dear sir,
I am writing in regard to "Detroit Edison Company Fermi Nuclear Power Plant, Unit 3 Combined License Application Notice of Intent to Prepare an Environmental Impact Statement and Conduct Scoping Process" (Docket ID NRC-2008-0566). Thank you for the opportunity to comment.

I am terribly concerned about nuclear waste. There is no long term solution for its storage. There are over 100 nuclear power plants in operation today which are temporarily storing the waste on site. Until we can find or create a long term solution for such waste, we should not construct a new nuclear power plant.

We are poisoning our environment, and ourselves. Radionuclides are carcinogenic..

I am asking that you let me know what you know about permanent storage of nuclear waste.
