Dear Nuclear Regulatory Commission,

Public Confidence in the NRC Would Be Strengthened By Nuclear Waste Realism and Compliance With the National Environmental Policy Act

I am writing to urge that the NRC should suspend all generation of atomic waste from new sources unless and until a truly permanent program that is scientifically sound and rooted in a just and equitable siting/decision process is instituted. I also support a NEPA analysis of the issues associated with wastes generated at every step in the fuel chain, prior to any federal action.
