Dear Nuclear Regulatory Commission,

Re: 73 FR 197 -- 10/09/2008  
Docket ID?2008?0482 and Docket ID-2008-0404

Public Confidence in the NRC Would Be Strengthened By Nuclear Waste Realism and Compliance With the National Environmental Policy Act

As NRC revisits its "Waste Confidence Decision," it is fundamental to a rational discussion that the proposed operation of additional nuclear power reactors in the USA be included, as additional reactors would necessarily result in the generation of more radioactive waste in the USA.

I support a NEPA analysis of the issues associated with wastes generated at every step in the fuel chain, prior to any federal action.
